HUNTINGTON DRUG & ALCOHOL COUNSELING & EDUCATION CENTER

Our Mission:

To provide comprehensive prevention, education, and treatment services to youth and adults

Huntington Drug and Alcohol Counseling and Education Center utilizes diverse and caring licensed clinicians to provide services both in the community and on-site.

Prevention services include age-appropriate educational curricula, community presentations, and tailored evidence-based early interventions for youth identified as at-risk for substance abuse.

Treatment Services are highly individualized, and includes evaluation, assessment, referral as well as group/individual/family counseling. Specialty offerings available for adolescents, those with gender related issues, impaired driving offenders, and individuals whose primary language is Spanish.

Treatment Services

Individual Counseling: Help Individuals cope with issues that both contribute to and stem from substance use.

Group Counseling: Help clients develop connection, use support and encouragement, and add structure to lives often in crisis.

Specialty groups include:

Adolescent Group: attention to social difficulties and establishment of identity.

Womens Group: consideration of stigma, trauma, and other gender-specific areas.

Mens Group: emphasis on feelings, social norms, and other gender-specific areas.

Latino Group: conducted in Spanish, sensitivity to cultural aspects about seeking help, dealing with family, and spirituality.

Significant Other Counseling: Help family and friends of substance users develop healthier coping skills, and use support for growth.

Family Counseling Sessions: Engage client and family in establishing healthy boundaries, communication, and progress.

Recovery Workshop Series: Assist clients to identify triggers, use healthy coping techniques. Understand addiction as illness of body, mind, and spirit. Examine tools for sustained recovery, including self-help community groups.

Impaired Driver Series: Educate clients who have had arrests for driving offenses related to alcohol and drug use. Focus is on decision making, consequential cognition.
